SETERIE ARGENTI PRESENTS ARTIST FABRIZIO MUSA

Como, JANUARY 29, 2024: How much Art or how much Fashion itself is Art, and how much fabrics, materials, graphics, colors, are the concrete realization of it: all this appears in a presentation of "collection," made up of several "capsules," segmentations of proposals, ideas, themes, possibilities of customizations, which Seterie Argenti shows in a eclectic and fascinating "Gallery".

And how visible and effective the message is, is demonstrated by the synergy created, natural for a company that of art has been nourished and described precisely in a "Gallery" rich, multifaceted works, young of ideas and harbinger of emotions; but it is also natural for an artist as cultured and intense

as Fabrizio Musa, that the Lake Como "Genius loci" intrudes, and as an artist, the value translates.

It is a company and Artist's boast to ensure that a theme such as Como Rationalism, an iconic and illustrious period of art, rational by definition and traits, exudes poetry and passion, the same passion and poetry that Seterie Argenti puts, optimizing them in all its expressions.

Fabrizio Musa, (Como 1971) lives and works between Como and New York.
